Violations of this provision by bidder or state agency personnel may result in the rejection of the proposal.

### **1.2. Negotiated Procurement:**

This is a negotiated procurement pursuant to K.S.A. 75-37,102. Final evaluation and award will be made by the Procurement Negotiation Committee (PNC) consisting of the following entities (or their designees):

- Secretary of Department of Administration;
- Director of Purchases, Department of Administration; and
- Head of Using Agency

### **1.3. Appearance Before Committee:**

Any, all or no bidders may be required to appear before the PNC to explain the bidder's understanding and approach to the project and/or respond to questions from the PNC concerning the proposal; or, the PNC may award without conducting negotiations, based on the initial proposal. The PNC reserves the right to request information from bidders as needed. If information is requested, the PNC is not required to request the information of all bidders.

Bidders selected to participate in negotiations may be given an opportunity to submit a revised technical and/or cost proposal/offer to the PNC, subject to a specified cut off time for submittal of revisions. Meetings before the PNC are not subject to the Open Meetings Act. Bidders are prohibited from electronically recording these meetings. All information received prior to the cut off time will be considered part of the bidder's revised offer.

No additional revisions shall be made after the specified cut off time unless requested by the PNC.

### **1.4. Cost of Preparing Proposal:**

The cost of developing and submitting the proposal is entirely the responsibility of the bidder. This includes costs to determine the nature of the engagement, preparation of the proposal, submitting the proposal, negotiating for the contract and other costs associated with this RFP.

### **1.5. Preparation of Proposal:**

Prices are to be entered in spaces provided on the cost proposal form if provided herein. Computations and totals shall be indicated where required. In case of error in computations or totals, the unit price shall govern. The PNC has the right to rely on any prices provided by bidders. The bidder shall be responsible for any mathematical errors. The PNC reserves the right to reject proposals which contain errors.

All copies of cost proposals shall be submitted in a separate sealed envelope or container separate from the technical proposal. The outside shall be identified clearly as "Cost Proposal" or "Technical Proposal" with the Bid Event ID / RFP number and closing date.

A proposal shall not be considered for award if the price in the proposal was not arrived at independently and without collusion, consultation, communication or agreement as to any matter related to price with any other bidder, competitor or public officer/employee.

Technical proposals shall contain a concise description of bidder's capabilities to satisfy the requirements of this RFP with emphasis on completeness and clarity of content. Repetition of terms and conditions of the RFP without additional clarification shall not be considered responsive.

### **1.6. Signature of Proposals:**

Each proposal shall give the complete legal name and mailing address of the bidder and be signed by an authorized representative by original signature with his or her name and legal title typed below the signature line. If the contract's contact will be a different entity, indicate that individual's contact information for communication purposes. Each proposal shall include the bidder's tax number.

### **1.7. Acknowledgment of Amendments:**

### **1.8. Modification of Proposals:**

A bidder may modify a proposal by letter or by FAX transmission at any time prior to the closing date and time for receipt of proposals.

### **1.9. Withdrawal of Proposals:**

### **1.10. Competition:**

The purpose of this RFP is to seek competition. The bidder shall advise Procurement and Contracts if any specification, language or other requirement inadvertently restricts or limits bidding to a single source. Notification shall be in writing and must be received by Procurement and Contracts no later than five (5) business days prior to the bid closing date. The Director of Purchases reserves the right to waive minor deviations in the specifications which do not hinder the intent of this RFP.

### **1.11. Evaluation of Proposals:**

Award shall be made in the best interest of the State as determined by the PNC or their designees. Although no weighted value is assigned, consideration may focus toward but is not limited to:

- Cost. Bidders are not to inflate prices in the initial proposal as cost is a factor in determining who may receive an award or be invited to formal negotiations. The State reserves the right to award to the lowest responsive bid without conducting formal negotiations, if authorized by the PNC.

- Bidder's understanding of the project
- Compliance with the terms and conditions of the RFP

The usual method of verification is through the Employment Verification (I-9) Form.

With the submission of this bid, the contractor hereby certifies without exception that such contractor has complied with all federal and state laws relating to immigration and reform. Any misrepresentation in this regard or any employment of persons not authorized to work in the United States constitutes a material breach and, at the State's option, may subject the contract to termination for cause and any applicable damages.

Unless provided otherwise herein, all contractors are expected to be able to produce for the State any documentation or other such evidence to verify Contractor's IRCA compliance with any provision, duty, certification or like item under the contract.

## 4. SPECIFICATIONS

### 4.1 INTRODUCTION

The Kansas Medicaid program is currently in the midst of a major reform effort. The central focus of this effort included moving all medical, behavioral health and long term care services into a unified managed care program called KanCare effective January 1, 2013. The State has awarded contracts to three (3) managed care organizations (“MCOs”) to provide these services for nearly all Medicaid beneficiaries. The primary goal of this reform is to create a more integrated healthcare system that will lead to better outcomes and greater efficiency.

The State’s Medicaid program already included a fully integrated managed care program for individuals age 55 and over that meet certain qualifying criteria. The Program of All-inclusive Care for the Elderly (PACE) is managed by the Kansas Department for Aging and Disability Services (KDADS) in partnership with the Kansas Department for Health and Environment (KDHE) and the Centers for Medicare and Medicaid Services (CMS). This program serves Medicaid beneficiaries that are age 55 or older that meet nursing home functional eligibility criteria and are still able to live safely in the community. PACE organizations are responsible for providing all the medical, behavioral health, and long term care needs for their members. Integration of care is the core of the PACE model just as it is with KanCare. However, since PACE is a smaller, long-term care centered, provider-based model it provides a unique local option to KanCare.

In an effort to make the PACE option available to as many Kansans as possible, KDADS is seeking to expand the PACE footprint throughout much of the eastern part of Kansas. Currently, there are two (2) PACE sites in Kansas: Midland PACE of Topeka serving the counties of Douglas, Jackson, Jefferson, Osage, Pottawatomie, Shawnee, and Wabaunsee, and Via Christi PACE in Wichita serving Sedgwick County. KDADS enlisted the help of the National PACE Association to evaluate the feasibility of expanding PACE and their analysis suggests that expanding the PACE model to an additional 51 Kansas counties is quite feasible. This Request for Proposal solicits bids for expanding PACE to those 51 counties.

### 4.2 GOALS

The goal of this RFP is to solicit bids for new PACE sites to be located in regions one through four as identified in Appendix A attached hereto. A bidder may bid on one or more of these regions, but must specify which region(s). Deviations from the defined regions will be considered but must be clearly defined within the proposal. The State will give preference to those proposals that most closely align with the proposed regions while also addressing the State’s desire to expand PACE to as many counties as possible. Successful bidder(s) will be expected to immediately apply to CMS for approval of a PACE site covering the population of proposal Region. Subject to CMS approval, it is hoped that services would commence during the first quarter of calendar year 2015.

### 4.3 PACE PROGRAM: IN GENERAL

#### A. Introduction to PACE.

PACE is an innovative model of community-based care that enables elderly individuals, who are certified by their state as needing nursing facility care, to live as independently as possible. Kansas currently has two PACE sites in operation.

PACE provides an alternative to traditional nursing facility care by offering prepaid, capitated, comprehensive health care services designed to meet the following objectives:

- To enhance the quality of life and autonomy for frail, older adults;
- To maximize the dignity of, and respect for, older adults;
- To enable frail, older adults to live in the community as long as medically and socially feasible; and
- To preserve and support the older adult's family unit.

The PACE capitated benefit was authorized by the Balanced Budget Act of 1997 and features a comprehensive service delivery system with integrated Medicare and Medicaid financing. Kansas has chosen to include PACE as an optional benefit in the State Medicaid Plan.

An interdisciplinary team, consisting of professional and paraprofessional staff, assesses beneficiary needs, develops a plan of care, and monitors delivery of all services (including acute care services as well as nursing facility services, when necessary) within an integrated system for a seamless provision of total care. Typically, PACE organizations provide social and medical services in an adult day health center supplemented by in-home and other services as needed. Studies have shown that beneficiaries in PACE have improved health status and quality of life, lower mortality rates, increased choice in how time is spent, and greater confidence in dealing with life's problems.

The financing model combines payments from Medicare and Medicaid, allowing PACE organizations to provide all needed services rather than be limited to those reimbursable under the Medicare and Medicaid fee-for-service systems. PACE organizations assume full financial risk for beneficiary care without limits on amount, duration, or scope of services.

#### **B. Customer Eligibility.**

The Federal PACE regulation establishes basic PACE eligibility requirements. Individuals must meet the following criteria:

- Be 55 years of age or older;
- Reside in the service area of the PACE organization, i.e., the "Region";
- Undergo assessment by the interdisciplinary team;
- Meet the state definition for nursing facility level of care; and
- Be able to live safely in the community (which means that nursing facility residents must be effectively transferred to the community at the time of enrollment into the PACE organization).

The State may impose additional requirements, but may not require that the beneficiary be eligible for Medicare as well as Medicaid, i.e., dually eligible. Kansas has the following additional eligibility criteria for PACE applicants:

- Must meet applicable Medicaid financial eligibility requirements; and
- Must meet Kansas functional eligibility requirements.

Physicians currently treating Medicaid patients who are in need of nursing facility care may consider PACE as an option. Hospital discharge planners may also identify suitable candidates for referral to PACE as an alternative to a nursing facility. Current Kansas PACE organization contact information is available on the website at <http://www.kdads.ks.gov/LongTermCare/PACE.html>.

### **C. PACE Services.**

The PACE organization is able to coordinate the entire array of services to older adults with chronic care needs while allowing elders to maintain independence in the community for as long as possible. The PACE service package must include all Medicare and Medicaid covered services, in addition to other services determined necessary by the interdisciplinary team for the individual beneficiary. Services include, but are not limited to:

- Adult day care that offers nursing; physical, occupational and recreational therapies; meals; nutritional counseling; social work and personal care;
- All primary medical care provided by a PACE physician familiar with the history, needs and preferences of each beneficiary, all specialty medical care, and all mental health care;
- Interdisciplinary assessment and treatment planning;
- Home health care, personal care, homemaker and chore services;
- Restorative therapies;
- Diagnostic services, including laboratory, x-rays, and other necessary tests and procedures;
- Transportation for medical needs;
- All necessary prescription drugs and any authorized over-the-counter medications included in the plan of care;
- Social services;
- All ancillary health services, such as audiology, dentistry, optometry, podiatry, speech therapy, prosthetics, durable medical equipment, and medical supplies;
- Respite care; and
- Emergency room services, acute inpatient hospital and nursing facility care when necessary

The PACE organization becomes the sole source of services for Medicare and Medicaid beneficiaries who choose to enroll in a PACE organization.

## **4.4 EVALUATION CRITERIA**

An interested bidder shall submit its proposal using the following criteria as a guide. Requirements of the CMS PACE application may also be utilized. See Section IX for a link to the PACE application.

### **A. Organizational commitment to principles consistent with the PACE model.**

The purpose of PACE is to: provide prepaid, capitated, comprehensive health care services that are designed to enhance the quality of life and autonomy for frail, older adults; maximize dignity of life and respect for older adults; enable frail, older adults to live in their homes and in the community as long as medically and socially feasible; and preserve and support the older adult's family unit. An organization should demonstrate that it is guided by a set of values consistent with this purpose and these values influence its structure, planning and day-to-day operations. Evidence of this commitment may come from the organization's mission statement, existence of community involvement in decision-making, letters of support from the community, etc.

### **B. Evidence the organization has the depth in leadership and experience required to develop and implement PACE successfully.**

Beyond reviewing organizational charts, job descriptions and staff resumes, on-site visits and meetings with staff and/or board members may be necessary to assess an organization's leadership abilities at the administrative, management and service delivery levels.

### **C. Evidence of experience in providing primary, acute and/or long term care services.**

In evaluating an organization's capacity to develop and implement the PACE model successfully, prior experience as a provider of medical and long term care services is critical. There are many different provider-type organizations, including integrated health systems, hospitals, community-based agencies and long term care providers. Each type of organization presents unique strengths and weaknesses. While it may be helpful to have experience in providing a range of services, including primary medical care, adult day care and home health care, the presence of these services is not a guarantee of success. Organizations must be willing and able to think flexibly and creatively about how services can be delivered more effectively in a capitated system, and they need to appreciate the extent to which existing service delivery systems must be reconfigured to develop an effective PACE program. An organization's plan for PACE development should reflect this realization and identify how services will be integrated through a single PACE interdisciplinary team.

**D. Evidence of experience in serving a dual eligible population.**

The organization should have experience in servicing a population that is eligible for both Medicare and Medicaid. From a marketing perspective, an organization that has developed a positive reputation among the target population has a greater chance of success.

**E. Evidence of sufficient demand for PACE services in the proposed service area.**

KDADS shall supply the bidder consumer demographic data as it relates to possible PACE placement in the regions addressed by this RFP. The State will consider deviations to the proposed regions but will give preference to those proposals that most closely align with the proposed regions while also addressing the State's desire to expand PACE to as many counties as possible.

**F. Assurance of adequate financial capacity to fund program development and start-up.**

The organization must be willing and able to fund program development and start-up costs that typically include capital renovation for a PACE center and substantial operating deficits during the program's initial 18-24 months of operation, while enrollment is below a break-even census.

**G. Assurance that the organization has the financial wherewithal to assume full financial risk.**

Organizations assume financial risk for the comprehensive acute and long term care benefit immediately upon initiating PACE operations. The organization must provide evidence of sufficient resources to meet Federal and State solvency requirements.

**H. The organization's timeline for program development.**

The length of time required to operationalize a PACE program varies substantially from organization to organization. This variance is related to a number of factors, including each organization's internal time frame for planning and decision-making, the length of time required to raise capital for program development, the length of time required to identify a location for and renovate/build a PACE center, and the length of time taken by the State to establish Medicaid capitation rates. It is difficult to establish specific criteria for the timeline; however, it should be realistic and consistent with the State's time frame for PACE development.

**I. HIPAA and Medical Records.**

The organization shall discuss its proposed policies for HIPAA, HITECH compliances as well as the creation, storage and maintenance of member medical records.

**J. Quality Assessment and Improvement Plan.**

The organization shall discuss in detail its proposed policies regarding ongoing member services and its continuing efforts to improve or maintain the delivery of services and member care.

**4.6 PAYMENT RATE**

The payment rate is a per member, monthly capitated rate established through negotiations between the PACE organization and the KDADS. The rate may not be more than 95 percent of “upper payment” limit calculated by an actuary.

**4.7 CONTRACT TERM**

Pursuant to section VII, below, the Contractor will also be required to execute a PACE Agreement, or the like, with CMS. The PACE Agreement with CMS will define the term of the agreement. The contract with the KDoA, KDADS and KDHE will correspond to the term of the PACE Agreement.

**4.8 SUBMISSION OF PACE APPLICATION TO CMS and WAIVER**

The successful bidder shall submit an Application to CMS for the PACE site approval. This application shall be submitted within 90 calendar days following written bid approval from the DoA, time being of the essence. The successful bidder shall at all times take any and all steps required to obtain CMS approval with the goal of service commencement during the first quarter, 2015. CMS’ approval is a condition precedent to the Contract. If CMS approval is not obtained, this shall be deemed a default under the Contract and, at the discretion of the Secretary of the KDADS, may result in Contract termination.

KDADS will support bidder’s application to CMS for waivers regarding the following options:

- Flexibility in settings where PACE services are provided;
- Flexibility in the composition of IDT team;
- Elimination of the personnel requirement for one year prior experience with frail or elderly population;
- Ability of the PACE provider to contract versus employ its Interdisciplinary team members; and
- For-profit organization applications.

The bidder must provide a narrative for how it will meet the necessary outcomes and regulatory requirements of PACE with any of these added flexibilities.
